DETAILED ACTION

Reasons for Allowance

- The allowed claims are 1-13.
- The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not show a plurality of first terminals, second terminals, third terminals and forth terminals, the second terminals intersected with the first terminals, the second ends of the third terminals being shorter than the second ends of the first and second terminals, and the second ends of the first terminals are positioned alternately to the second ends of the second terminals in combination with all the other elements of the claim and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
